ALBABICI DEALER ONLINE ORDERING SYSTEM

Welcome to the Albabici's Dealer information and online ordering system login page. If you need help, don't hesitate to contact your rep or call us at 805-385-3179, or email us at info@albabici.com.

This section is for Albabici Dealers only. Any update on products and ordering info, is available here. The requested password is provided by Albabici to RETAIL STORES and DEALERS only. Contact us for Login info.

WHO WE ARE

Founded by Italians, Gianluca Caliarì and Alessandro Godi, Albabici LLC, located in Oxnard, California, has over twenty years hands-on experience in marketing and distributing Italian goods within the North American market. Our deep understanding of the bicycle industry and strong relationships with our Italian manufacturers and suppliers result in many tangible and intangible benefits to our dealers. We are committed to delivering the best products in the world to our dealers. Albabici is a fast growing company that's constantly evolving.

Albabici's Mission:

To be the link between the Italian manufacturer/supplier and your business so products are readily available to your customers.

To promote, sponsor and distribute high-end Italian cycling products within the US market and persuade more people to welcome bicycling into their daily lives.

Gianluca Caliarì

Alessandro Godi 1984

WHY WORK WITH US.

- **SERVICE:** We ship the same day at the best possible shipping rates. You can speak directly with us, not to a numeric menu! We give you the attention you deserve!
- **PRICE:** Albabici has the best prices. If you find something better, just let us know.
- **SUPPORT:** We support your bike shop. We know that if we don't take care of you, someone else will. We stay behind our products.
- **QUALITY:** Our selection is based on quality. Our uniqueness means to provide quality products not available elsewhere. Our SMP saddles or NALINI apparel, for example, are market benchmarks.
- **RESPECT:** We proactively enforce our MAP policy. So you don't have to strive to compete with the big boxes or online stores. A fair margin for you is our objective.
- **PRODUCTS:** We haven't everything for everybody, but we have a great selection of unique specialty goods. Just taking them on the sales floor means to increase the sales!
- **PASSION:** Hey, we're Italians! We ride what we sell and we are fully committed to our business.
- **GIVING BACK:** We are constantly fueling pro tour teams and riders, as well as little groups and privateers. We support our local community.

We trade globally and we sell locally!

WE APPRECIATE THE OPPORTUNITY TO WIN YOUR BUSINESS.

HOW TO CHOOSE A SADDLE

1 Select the padding level (Pro Saddles)
 SMP4BIKE Professional line models are divided in the table on the right based on the padding level, starting from Carbon models and models without padding, to models with high padding.

2 What's your pant size? (Pro, Tri and TT Saddles)
 The models most suited to your physical build are marked with the symbol in the column that matches your pant size. Based on the previously selected padding level, find one or more models to choose from for the road test*. All models are UNISEX.

3 Test the saddle (Pro, Tri and TT Saddles)
 Visit our website, send us an e-mail or call us to find your nearest SMP4TEST dealer. You can test a saddle on your bike without any purchase obligations. A short adjustment period may be required for the new saddle: to guarantee the reliability of the test, you should ride the saddle at least four-five times, making the necessary adjustments. For further information on assembly and adjustments, see the instructions above.

Selle SMP is proud to announce the launch of

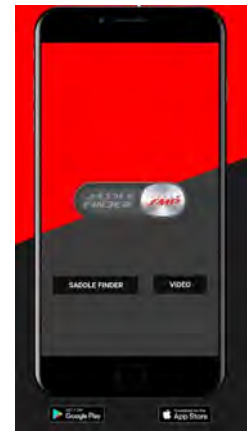

SADDLE FINDER

Many cyclists do not know how to choose the SMP models best suited to them. Do some retailers have difficulty supporting their customers? From now on everything is easier with Saddle Finder!

Thanks to Saddle Finder everyone can discover in just a few seconds the SMP saddles best suited to their body configuration, practiced discipline and personal preferences.

Just download the free "Selle SMP" app. It is available in 6 languages (English, Italian, French, German, Spanish and Dutch) for: IOS (Apple App Store) / Android (Google Play). Or run the app through the SMP Website.

Download the free "Selle SMP" app

Saddle Finder can be used with the new S-Tool (Sit Bones Measurement Tool)

STOOL

Stores are always essential to provide quality service to cyclists. That's why we have created STOOL as an integral part of Saddle Finder - that allows to measure the width of sit bones.

SIT BONES MEASUREMENT TOOL

Available in two versions

Finder - that allows to measure the width of sit bones.

STOOL is available in two versions at participating SMP Test Saddle Demo Centers (stores are free to choose the one that best suits their needs).

Tablet: light, easy to move and to be placed on a rigid surface about 45 cm high to make a correct measurement.

Seat: great aesthetic impact and able to attract consumers into the store.

This is a key step in finding the right SMP models for every person.

The stores that are equipped with STOOL are those that participate in the **SMP Test Saddle Demo Center program**. Participating stores will be included in our store locator as S-Tool Point.

Stores are always essential to provide quality service to cyclists.

That's why we have created STOOL as an integral part of Saddle Finder - that allows to measure the width of sit bones.

SMP4TEST SMP Test Saddle Demo Center Program

TEST SADDLES AVAILABLE

Test the saddle (Pro, Tri and TT Saddles) without purchase obligations.

Visit our website, send us an e-mail or call us to find your nearest SMP4TEST dealer. You can test a saddle on your bike without any purchase obligations. A short adjustment period may be required for the new saddle: to guarantee the reliability of the test, you should ride the saddle at least four-five times, making the necessary adjustments.

SMP Official Test Demo Center Dealer Displays

Includes 3 Test Saddles

TRK LARGE GEL

Covering: SVT (SMP Vacuum Tech)
Padding: Soft Polyurethane + GEL
Body: Co-polymer polypropylene
Frame: Steel
Dimensions: 272 x 177 mm
Weight: 500 gr

Recommended use:
Trekking / City - Touring

Colors available
Black, White

FAN-GO Bicycle Fender

FAN - GO is the smart accessory designed for your SMP4BIKE saddle. You will realize it's there only when you need it!

It protects your back and your groin area in bad weather or in muddy tracks. You set it up and remove in a few seconds without the use of tools. Resistant, light and easy to carry.

Please Note: FAN-GO is not compatible with the following models: MARTIN, E-BIKE, WELL Junior, TRIATHLON, TT, CARBON and FULL CARBON

SMP Saddle Rain Cover

- Waterproof!
- Easy to install!
- 100% Handmade in Italy!
- Code - ZRAINCOVERTRK (for all SMP models, except for MARTIN TOURING and E-BIKE models)
- Code - ZRAINCOVERMAR (for MARTIN TOURING and E-BIKE models only)

The Saddle Rain Cover is a must have to easily protect your SMP saddle from rain and weather. The integrated rear bag allows you to hold the waterproof cover while using the bicycle and quickly apply it to the saddle when needed.

It is also compatible with thru axle and/or quick release brakes. The bike attaches on the bottom bracket.

It includes a bag inside for carrying helmet and shoes.

NEW

SMP Saddlebags

Saddle Bag For ROAD

- Code: ZBAGSMROAD
- L 11 cm x W 6 cm x H 6 cm
- L 4.3 in x W 2.4 in x H 2.4 in.
- 396 cc – 13.4 fluid oz

Saddle Bag For MTB

- Code: ZBAGSMPMTB
- L 16 cm x W 6 cm x H 7 cm
- L 6.3 in x W 2.4 in x H 2.8
- 672 cc – 22.7 fluid oz

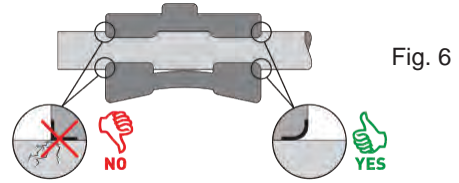

INSTRUCTIONS FOR ASSEMBLY RECOMMENDATIONS REGARDING THE SEATPOST

The seatpost has a significant impact on saddle frame resistance: For this reason Selle SMP recommends a seatpost with the following characteristics:

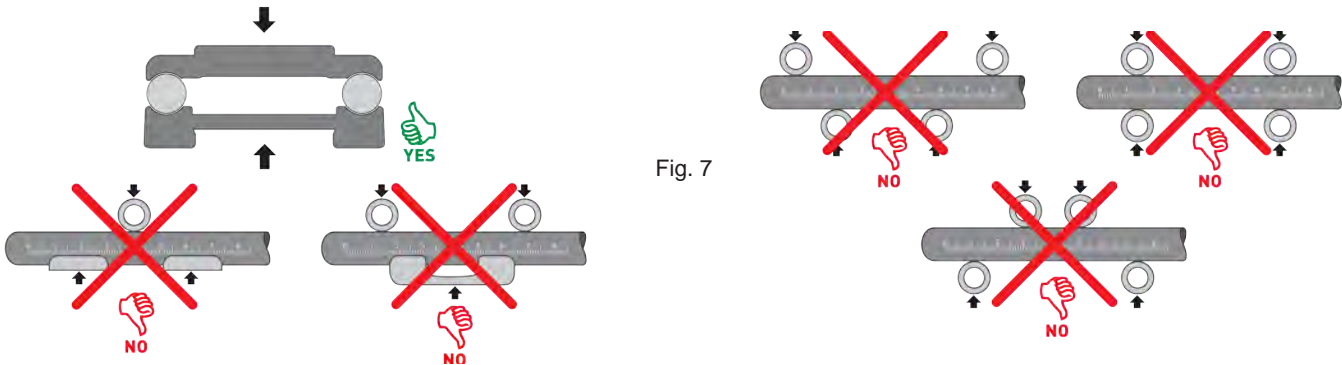

1. It should allow correct saddle positioning. (Fig. 5)

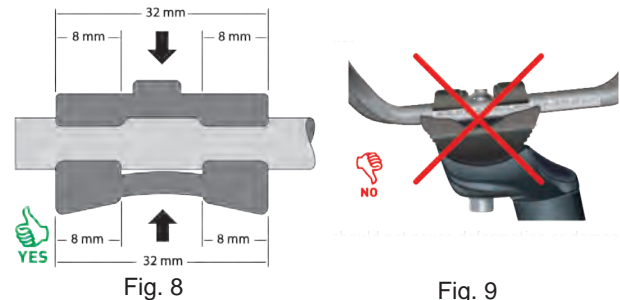

2. It should not have sharp edges which, by cutting, could compromise saddle frame resistance. (Fig. 6)

3. The jaws should have the same external surface shape as the saddle frame to correctly fit with a wide contact surface. (Fig. 7)

4. The contact area between the seatpost and the saddle frame should not be under 8 cm² (Fig.8)

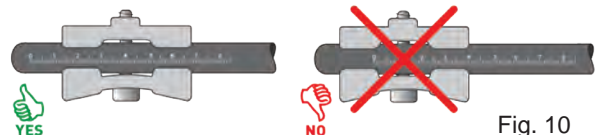

5. The jaws should connect with the saddle frame for a minimum length of 32 mm

6. The coupling surfaces with the saddle frame should be both symmetrical and parallel. (Fig. 9)

7. The jaws should not cause deformation or damage to the saddle frame.

8. The seatpost jaws should not protrude beyond the graphed area. (Fig 10)

9. The closing torque recommended by the actual seatpost manufacturer must be strictly abided by.

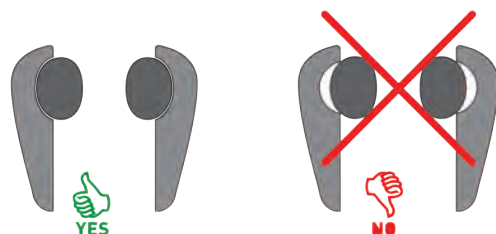

10. The seatpost must meet UNI EN 14781 European standards – Racing bicycle - Test requirements and methods and UNI EN 14766 - Mountain bike - Safety requirements and test methods.

ADDITIONAL SEATPOST REQUIREMENTS

For saddles with carbon fibre chassis (the Full Carbon and CRB versions).

11. If a lateral clamp seatpost is used, we recommend using jaws with a range and profile suited to house the carbon fibre saddle frame with 7.1 x 9.6 mm. (Fig. 11)

For further information, please refer to the seatpost manufacturer's instructions.

GIST Bike Covers - Protect your bike from stone chips, insects and dust that could damage your bike's handle bars, fork, saddle and profile. Bike covers 2216 (Road) and 2218 (MTB) are waterproof versions of the defenders.

LEADER IN BIKE TRANSPORTATION SINCE 1980

Travelling with your Triathlon bike just got easier. Maximum protection and mobility, with minimal packing means more time on the bike.

AeroComfort TRI 3.0 TSA

Case also compatible with road bikes thru axle or quick release

Code: TP033105013
Material: SCICON D-TEX860™
Fastening: Self-healing zips
Weight: 8 Kg / 17.6 lb
Ext. Dim.: L 129 cm x D 45 cm x H 98 cm

Front View

Lightweight, easy to use and comfortable to carry, while guaranteeing a high level of protection in all the right places. The new design is compatible with thru axle systems as well as traditional quick release; provides extra reinforcement; and has a new Twin Wheel system for easier transportation. The clever design of the AeroComfort Triathlon 3.0 TSA bike travel bag allows the bike to remain fully intact. Complimenting a good bike fit, your bike's aero bars and seat post remain on the bike. The hybrid protection system combines a padded outer soft shell and an integrated frame stand compatible with both quick release and thru axle skewer systems. While the internal Frame Defender protects your bike from impacts, it also doubles up as a bike stand. Security personnel can inspect your bike without having to remove it from the bike bag. A TSA padlock protects and provides added security while only allowing access to TSA agents. Light as a feather.

Aerocomfort MTB TSA Wilier Travel Bag

Code: TP 029000509 WT
Material: Nylon 840 padded
Fastening: Self-healing zips
Weight: 14.5 lb
Ext. Dim.: L 136 cm x D 22 cm x H 90 cm

The AeroComfort combined with the Antishock Bike Frame is specifically engineered to protect all critical parts from shocks, vibrations and impacts. (Road version shown here).

G. TSR (All Terrain)

- Weight: 449 gr. (Size 43)
- G. Explorer Vibram Sole
- EVA Midsole
- Shimano / crankbrothers cleat compatible
- Breathable nylon upper
- Micro adjustable Boa® Fit System
- L6 with one reel and cable closure
- Breathable and antibacterial lined insole
- Sizes: 37-47
- Made in Italy

Black: #4909-007

G. Explorer Vibram Sole

Orange #4909-008

G. Explorer Vibram Sole:

The new high performance rubber compound featuring unparalleled grip on wet and dry surfaces. Optimal balance of stability and flexibility for ground adaptation combining power transfer in the pedal area.

- 1) Removable rubber pad to free in-set binding system
- 2) Self cleaning open design for traction and safety
- 3) EVA midsole to reduce weight and improve shock absorbing

G. Arc (E-Active)

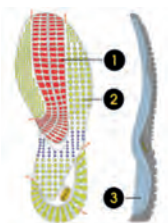

- Weight: 349 gr. (Size 43)
- G. Tourer Vibram Sole
- EVA Midsole
- Breathable nylon upper
- Lacing Closure System
- Breathable and antibacterial lined insole
- Sizes: 37-47
- Made in Italy

G. Tourer Vibram Sole

Antracite: #4906-014

G. Tourer Vibram Sole with rubber thread:

Engineered for stability and comfort, it is ultralight and offers optimal balance of grip and durability.

- 1) Engraved lugs for traction and grip
- 2) Small lugs for multi-point contact and extraordinary grip
- 3) EVA midsole to reduce weight and improve shock absorbing

The **Boa® Fit System IP-1** has a triple functionality: to fasten the right closure turn the dial clockwise and to loosen it turn counterclockwise, the exact opposite is for the left shoe. Pull the dial to fully open the shoe. The Boa IP-1 has a hexagonal shape, combined with a substantial TPU overmold, that delivers

added grip and power.

The patented **Boa® Fit System L6** consists of a micro-adjustable dial, super-strong lightweight laces, and low friction lace guides. The combination of these elements allows the rider to obtain uniform closure without any pressure points. The absence of velcro straps allows for greater air circulation in the front part of the shoe.

LAS Helmets

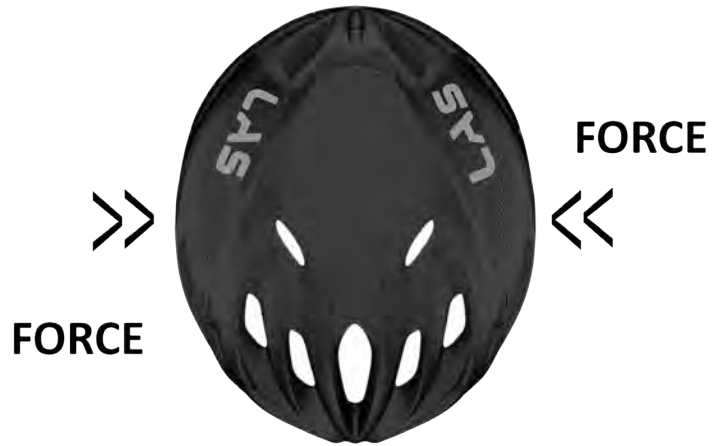

- Attention to details, passion and research since 1974.
- LAS creates helmets where design and creativity are developed at the service of comfort and at what remain our first and most important mission: the protection of our athletes.

LDHR Technology is available on the following models:

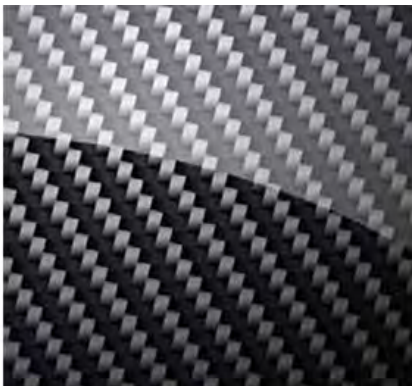

- Virtus Carbon
- Virtus
- Cobalto

LDHR TECHNOLOGY: Providing lateral deformation high resistance and maximum resistance to lateral compression forces.

LAS Helmet Technology:

Virtus Carbon: Reinforced carbon fibre frame; Guarantees more strength and resistance to impacts.

Inner Padding: Removable Inner pad made in antibacterial material; Anti insect Net; Interpower treatment for quick drying.

Magnetic Buckle: Simple to fasten with the use of one hand; Tight and safe hold thanks to the internal magnet.

Nano 3D Adjuster: Size adjuster system in 3 different dimensions, allows to adjust the circumference and height of the neck restraint system.

VIRTUS CARBON

1. In-moulding technology and carbon frame
2. Ventilation: 22 holes
3. Weight: 285 g. (S/M) - 320 g. (L/XL)
4. Size: S/M (54 - 59) - L/XL (59 - 61)
5. Safety Standard: CPSC
6. Padding Resistex Carbon yarn and anti insect net
7. Nano 3d adjusting system with micrometric wheel
8. Light strap with magnetic buckle
9. Second padding with Interpower treatment and anti insect net
10. LDHR Technology

*Virtus Carbon
Matt Black/Carbon
LB00030020 109*

The result of more than two years of research and development, Virtus Carbon is the helmet that combine the highest level of safety and comfort thanks to the reinforced carbon fibre frame. A noble material that guarantees cutting-edge performance in terms of impact resistance and weight reduction, to provide a surprising feeling and a brand new user experience.

*Virtus Carbon White/Carbon

*Virtus Carbon Matt Black/Carbon
LB00030020 109*

COBALTO

1. In-moulding technology
2. Ventilation: 20 holes
3. Weight: 240g. (S/M) - 285 g. (L/XL)
4. Size: S/M (54 - 59) - L/XL (59 - 61)
5. Safety Standard: CPSC
6. Padding with Interpower treatment and anti insect net
7. Nano 3d adjusting system with micrometric wheel
8. Breathable band with magnetic buckle and chin protector
9. LDHR Technology

*Cobalto Matt Black
LB00010020 004*

*Cobalto White/Black
LB00010020 197*

*Cobalto Black/Celeste Bianchi
LB00010120 106*

Cobalto is designed and made in Italy at the LAS factory. Cobalto features 20 airflow vents strategically placed throughout the helmet to improve ventilation and aerodynamics. LDHR TECHNOLOGY provides lateral deformation high resistance and maximum resistance to lateral compression forces. Additional features: removable liner with an integrated anti-insect net keeps bugs out; magnetic buckle system; and Nano 3D micro-adjust dial to customize the fit to your head.

Enigma

1. In-moulding technology
2. Ventilation: 24 holes
3. Weight: 250 g. (S/M) - 270 g. (L/XL)
4. Size: S/M (55 - 58) - L/XL (59 - 61)
5. Safety Standard: CPSC
6. Padding with anti insect net
7. Adjuster system with micrometric wheel
8. Soft strap and chin protector
9. Four led steady light or blinking mode

Enigma MTB is the 2 in 1 helmet suitable for every cyclist that faces terrain with different characteristics. Safety and visibility is at the maximum level thanks to the LED rear light in three intermittent modes.

Xeno

1. In-moulding technology with Polycarbonate shell
2. Ventilation: 28 holes
3. Weight: 225 g. (S/M) - 260 g. (L/XL)
4. Size: S/M (54 - 59) - L/XL (59 - 61)
5. Safety Standard: CPSC
6. Padding with Interpower treatment and anti insect net
7. Easy turn 3D adjusting system with micrometric wheel
8. Breathable band with Shock flex buckle and chin protector
9. Rear reflective inserts

Modern design, smooth lines that make the style refined and compact. Essentials are there in just 225 grams, always with the exceptional comfort and fitting that characterize the LAS helmets. Three rear reflective systems guarantee safety for your evening rides. Xeno is a chemical element that takes on a light blue colour if excited by an electric discharge.

PC

The new **LIMAR ROC** goggle, for enduro and downhill, has been designed to perfectly fit both the face of the rider and the shape of the new LIMAR DELTA Enduro helmet. It offers a wide peripheral vision, essential for both performance and safety. The Grilamid TR90 material frame with its great flexibility guarantees excellent comfort and is equipped with outriggers that allow perfect adaptation to your helmet.

The high-quality anti-fog polycarbonate lens offers total UV protection while allowing good visibility even in the woods (cat 2) and has mirrored finish for greater strength. The pin lens retention system ensures a secure fit and allows lens replacement. The 4 cm elastic band is equipped with silicone inside to ensure perfect adherence to the helmet. The soft double layer foam in contact with the skin guarantees perfect adherence and comfort, prevents humidity and protects from the wet.

FAVALORO

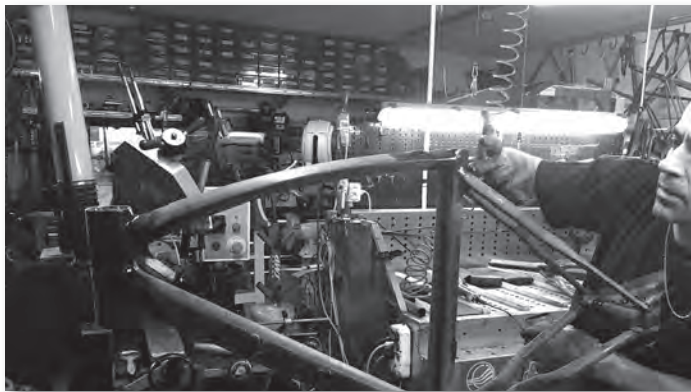

FAVALORO

One man, alone, with his hands can actually make these frames. There are no gimmicks, no loopholes, no marketing tools, no pre-preg, no bs, just facts. He makes these bikes, right there, in Italy: on the Garda Lake shores, where he was born and bred.

He breathes bikes, he eats bikes, actually he builds bikes. He has been building frames for 27 years.

Are you looking for something different from another cookie-cutter, mass-produced frame, with no soul? Do you want to know the man who's building your next frame? Well, you don't even need to learn Italian to talk with Michele Favaloro, just call us.

GX CARBON GRAVEL

“The amount of hands-on fabrication that goes into each frame is the reason that each bike bears the Favaloro name.”

“With my name on each bike, it is important that I have to make the frame,” he insists, “not somebody else. It is only from building each frame that I learned how to improve.”

“Michele Favaloro is no Ernesto Colnago. He is half the age of the Italian master and has nowhere near the international recognition. Still, there are traits found with the young Italian frame builder that certainly drive some comparisons. Both are fascinated with the bicycle and how to make it perform better. Both are steadfast in their work ethic, consumed by a desire to produce one more frame each day.”

PUMA NTO ROAD

Your current bike got the right size for you? Right on, you can take measurements to be replicated on your brand new Favaloro frame. Then if you want, you can add more features, upgrade the cable routing or the type of brakes (fancy new disc brakes, maybe?). So let's crank it up!

PUMA EGX CARBON

Buying a Favaloro, it's another kind of buying experience.

Forget the shopping cart!

You will be in contact with human beings, only.

So relax and enjoy.

Your new Favaloro frame it's already on its way!

What's still made by measure nowadays? Not a lot, unfortunately. Standardization is the mantra, right? Mass-production and profit maximization, have made the rest. But, thanks goodness, there's still something made bespoke with passion!

Miura TC37 Disc Carbon Tubeless Clincher

- **HUBS:** Ursus hubs in alloy with VelvetTouch finishing, DISC CENTER LOCK, RD50 hubs. RD50 FRONT - 24 holes, THRU AXLE 100x12. RD50 REAR - 24 holes, THRU AXLE 142X12. SKF high-slip ball bearings or CERAMICSPEED® bearings
- **BRAKING SYSTEM:** Disc Center Lock
- **WEIGHT:** Front 700 gr, rear 820 gr
- **RIM:** Made in Italy. Full carbon fiber UD finishing.
- **PROFILE:** Height 37 mm, Wide profile 28 mm.
- **SPOKES:** Straight pull black carbon steel SAPIM CX-Ray 24 front and 24 rear spokes.
- **NIPPLES:** External brass type with locking system - black
- **ADVISED TIRE:** 28" - 24-622 ETRTO for clincher and UST™ tubeless

Compatibility:

MIURA TC37 DISC wheels for road bikes with disc brakes are suitable for all types of routes. The medium rim profile, designed following the low aerodynamics of the profile Naca 0027, allows cyclists who love mixed routes to ride at their maximum performance on every occasion. The wheels are fitted with a new pair of Ursus alloy hubs, with high-smooth ball bearings, and checked with special optical-controlled machines before being mounted on the wheels.

BLACK REFLECTIVE STICKERS: Glow in the dark! You can get an high visibility on he road. Stay safe with Ursus.

CUSTOM COLORS: For minimum of 7 pairs of wheels you can choose the stickers of the colour you prefer.

INCLUDED: Wheels bag, Rim Tape 24/622, Valve extensions, User guide

Miura TC47 Disc Carbon Tubeless Clincher

- **HUBS:** Ursus hubs in alloy with VelvetTouch finishing, DISC CENTER LOCK, RD50 hubs. RD50 FRONT - 24 holes, THRU AXLE 100x12. RD50 REAR - 24 holes, THRU AXLE 142X12. SKF high-slip ball bearings or CERAMICSPEED® bearings
- **BRAKING SYSTEM:** Disc Center Lock
- **WEIGHT:** Front 780 gr, rear 890 gr
- **RIM:** Made in Italy. Full carbon fiber UD finishing.
- **PROFILE:** Height 47 mm, Wide profile 28 mm.
- **SPOKES:** Straight pull black carbon steel SAPIM CX-Ray 24 front and 24 rear spokes.
- **NIPPLES:** External brass type with locking system - black
- **ADVISED TIRE:** 28" - 24-622 ETRTO for clincher and UST™ tubeless

Compatibility:

MIURA TC47 DISC wheels for road bikes with disc brakes are suitable for all types of routes. Miura TC67 Disc Carbon Tubeless Clincher

- HUBS:** Ursus hubs in alloy with VelvetTouch finishing, DISC CENTER LOCK, RD50 hubs. RD50 FRONT - 24 holes, THRU AXLE 100x12. RD50 REAR - 24 holes, THRU AXLE 142X12. SKF high-slip ball bearings or CERAMICSPEED® bearings
- BRAKING SYSTEM:** Disc Center Lock
- WEIGHT:** Front 780 gr, rear 890 gr
- RIM:** Made in Italy. Full carbon fiber UD finishing.
- PROFILE:** Height 67 mm, Wide profile 28 mm.
- SPOKES:** Straight pull black carbon steel SAPIM CX-Ray 24 front and 24 rear spokes.
- NIPPLES:** External brass type with locking system - black
- ADVISED TIRE:** 28" - 24-622 ETRTO for clincher and UST™ tubeless

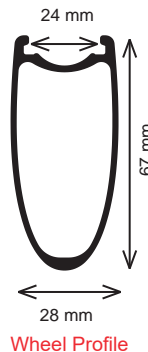

The aesthetic impact is certainly the first thing that strikes you about the MIURA TC67 DISC wheels. The new rim profile, designed by following the aero profile GOE 775 AIRFOIL, will provide the best performance in terms of aerodynamics. The smooth design of the rim allows this wheel to remain stable also on extreme windy conditions. This new model of wheels is equipped with the new hubs, which, thanks to the precision with which they are produced, guarantee you an unprecedented smoothness. This model is also available with braking surface rim MIURA TC67.

BLACK REFLECTIVE STICKERS: Glow in the dark! You can get an high visibility on he road. Stay safe with Ursus.

CUSTOM COLORS: For minimum of 7 pairs of wheels you can choose the stickers of the colour you prefer.

INCLUDED: Wheels bag, Rim Tape, Valve extensions, User guide

Compatibility:

Miura TR37 / TR47 / TR67 Disc Carbon Tubulars (Also available in the caliper brake version)

- HUBS:** Ursus hubs in alloy with VelvetTouch finishing, DISC CENTER LOCK, RD50 hubs. RD50 FRONT - 24 holes, THRU AXLE 100x12. RD50 REAR - 24 holes, THRU AXLE 142X12. SKF high-slip ball bearings or CERAMICSPEED® bearings
- WEIGHTS:**
 - TR37 = Front 690 gr, rear 790 gr.
 - TR47 = Front 800 gr, rear 910 gr.
 - TR67 = Front 800 gr, rear 910 gr
- RIM:** Made in Italy. 28" - tubular. Full carbon fiber UD finishing.
- BRAKING SYSTEM:** Disc Center Lock.
- PROFILES:**
 - TR37 = Height 37 mm, Wide profile 28 mm.
 - TR47 = Height 47 mm, Wide profile 28 mm.
 - TR67 = Height 67 mm, Wide profile 28 mm.
- SPOKES:** Carbon steel straight pull black CX-Ray Sapim 24 front and 24 rear.
- NIPPLES:** External brass type with locking system - black.
- ADVISED TIRE:** 28" - ø 700 for tubular

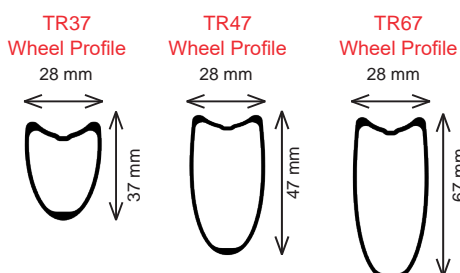

The MIURA TR37 / TR47 / TR67 DISC wheels rim profiles makes them suitable for all conditions and the increased width of the rim allows for greater comfort and driving control and a perfect coupling with 25mm and 28mm tubulars. This rim has been designed following the aerodynamics of the NACA 0027 profile, which allows cyclists who love mixed routes to ride at maximum performance on any occasion. The carbon used is impregnated with a particular resin that is very resistant to the high temperatures reached during braking by the cyclist. Models are also available in the caliper brake versions.

BLACK REFLECTIVE STICKERS: Glow in the dark! You can get an high visibility on he road. Stay safe with Ursus.

CUSTOM COLORS: For minimum of 7 pairs of wheels you can choose the stickers of the colour you prefer.

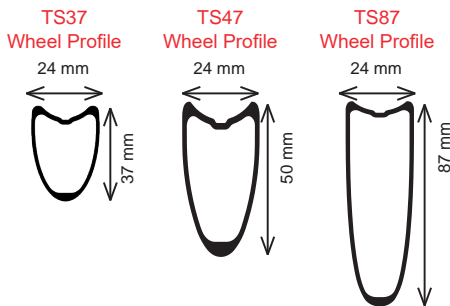

INCLUDED: Wheels bag, Valve extensions, User guide

Compatibility:

Miura TS37 / TS47 / TS87 EVO Carbon Tubulars

- **HUBS:** Ursus hubs in alloy with VelvetTouch finishing R40 hubs. Available with SKF high-slip ball bearings or CERAMICSPEED® bearings.
- **WEIGHTS:**
 - TS37 = Front 550 gr, rear 700 gr.
 - TS47 = Front 580 gr, rear 750 gr.

- **ADVISED TIRE:** 28" - ø 700 for tubular

Compatibility:

Ursus MIURA TS37 / 47 / 87 EVO wheels are among the best-selling Ursus wheels.

These are medium profile wheels, therefore suitable for mixed routes, both during training sessions and in the most demanding competitions. In this new EVO version, we lightened the weight of the rim and assembled with the new R40 hub.

BLACK REFLECTIVE STICKERS: Glow in the dark! You can get an high visibility on he road. Stay safe with Ursus.

CUSTOM COLORS: For minimum of 7 pairs of wheels you can choose the stickers of the colour you prefer.

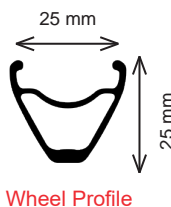

Included: Wheels bag, Brake pads Black Prince Swissstop, Valve extensions, 2 Ursus WB05 alloy quick releases, User guide

Orion Disc Aluminum Clincher (Tubeless Ready)

- **HUBS:** Alloy hub Al 7075 on SKF seal ball bearing high fluidity. RD30 disc center lock, black anodized
- **WEIGHT:** Front 925 gr, rear 1050 gr.
- **RIM:** Made in Italy. 28" - 622X14C clincher. Clincher and tubeless ready alloy black rim.
- **BRAKING SYSTEM:** Disc center lock.
- **PROFILE:** Height 25 mm, Wide profile 25 mm.
- **SPOKES:** J-bend spokes. Front: 24. Rear: 24.
- **NIPPLES:** External brass type with locking system - black.
- **ADVISED TIRE:** Tire 28" diam. 700x23 and 700x25

Compatibility:

Orion DISC: A cycling wheel optimized for disc braking system. Orion are the perfect synthesis of the must have features that you'll need from a road racing cycling and gravel wheel. Yet selected for training by professional teams which have chosen Ursus, it has stood for reliability in classic races such as the "Strade Bianche". An aluminum low profile rim, associated with a pair of the new RD30 hubs makes the Orion disc extremely comfortable, supersoft on roughness, slight uphill and responsive at the same time.

INCLUDED: Flap 20/622, User guide

Miura TC37 Carbon Tubeless Clincher

- **HUBS:** Ursus hubs in alloy with VelvetTouch finishing R40 hubs. Available with SKF high-slip ball bearings or CERAMICSPEED® bearings.
- **WEIGHT:** Front 670 gr, rear 850 gr
- **RIM:** Made in Italy. Full carbon fiber UD finishing
- **PROFILE:** Height 37 mm, Wide profile 28 mm.
- **SPOKES:** Straight pull black carbon steel SAPIM CX-Ray 20 front and 24 rear spokes.
- **NIPPLES:** External brass type with locking system - black
- **QUICK RELEASES:** Ursus WB05 alloy quick release.
- **ADVISED TIRE:** 28" - 24-622 ETRTO for clincher and UST™ tubeless

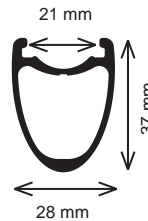

TC37 wheels for road racing bikes are ideal for all conditions. The medium rim profile, designed following the aerodynamic profile of a Naca 0027, allows cyclists who love mixed routes to ride at their maximum performance on every occasion. The carbon used is impregnated with a particular resin very resistant to the high temperatures reached during braking by the cyclist. This model is also available in the disc brake version MIURA TC37DISC.

BLACK REFLECTIVE STICKERS: Glow in the dark! You can get high visibility on the road. Stay safe with Ursus.

CUSTOM COLORS: For minimum of 7 pairs of wheels you can choose the stickers of the colour you prefer.

Included: Wheels bag, Brake pads Black Prince Swisstop, Valve extensions, 2 quick releases, User guide

Compatibility:

Wheel Profile

Miura TC67 Carbon Tubeless Clincher

- **HUBS:** Ursus hubs in alloy with VelvetTouch finishing R40 hubs. Available with SKF high-slip ball bearings or CERAMICSPEED® bearings.
- **WEIGHT:** Front 790 gr, rear 960 gr
- **RIM:** Made in Italy. Full carbon fiber UD finishing
- **PROFILE:** Height 67 mm, Wide profile 28 mm.
- **SPOKES:** Straight pull black carbon steel SAPIM CX-Ray 20 front and 24 rear spokes.
- **NIPPLES:** External brass type with locking system - black
- **QUICK RELEASES:** Ursus WB05 alloy quick release.
- **ADVISED TIRE:** 28" - 24-622 ETRTO for clincher and UST™ tubeless

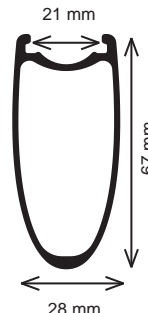

The aesthetic impact is certainly the first thing that strikes you about the MIURA TC67 wheels. The new rim profile, designed by following the aero profile GOE 775 AIRFOIL, will provide the best performance in terms of aerodynamics. It has been technically designed to be UST (Universal System tubeless) and therefore allows you freely to choose whether to mount tubeless or clincher tyres. This model is also available in the disc brake version MIURA TC67.

BLACK REFLECTIVE STICKERS: Glow in the dark! You can get a high visibility on the road. Stay safe with Ursus.

CUSTOM COLORS: For minimum of 7 pairs of wheels you can choose the stickers of the colour you prefer.

INCLUDED: Wheels bag, brake pads Black Prince Swisstop, quick releases, 2 years warranty

KODIAK: Kodiak is the off-road wheel designed to meet the technical requirements of the most demanding riders, especially in terms of comfort and grip. A racing rim that improves the wheel contact surface to the ground, guaranteeing superior comfort, grip and driving precision. The Hookless profile improves the contact of the tire with the rim avoiding the bead breaker. Thus the tire shape results in a more stable and it improves its performance during use, allowing a more precise and safe ride. The design and method of manufacture, allows a lighter but more shock resistant structure. During the test the Hookless profile has proven to greatly withstand the tire bead breaker. The rim design has been optimized for mounting latest generation of wide tires: From a structural point of view, these contribute to improve the couple rim tubeless/clincher even at lower pressures, avoiding unwanted deformations when bending, braking and in traction phase. The crossed disposition of the spokes adopted in Kodiak is designed to optimize the performance of the 28 spokes, providing lateral stiffness and radial absorption of stress when using the MTB. INCLUDED: Wheels bag, User guide

Alcor MTB

- **HUBS:** Alloy hub Al 7075 on seal ball bearing high fluidity. XD31 front 28 holes, Thru axle 110x15 boost rear 28 holes, Thru Axle 148x12
- **WEIGHT:** 29" - Front 720 gr, rear 830 gr
- **RIM:** Made in Italy. KOM WTB69-Al6069.

AVAILABLE SIZES

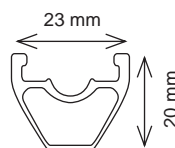

Orange Fluo

Ursus designed the Alcor wheels with precise specifications: rims in alloy Al 6069 WTB, 28 holes, straight pull spokes, Ursus hubs.

The mix of these components guarantees comfort, ease of use and thanks to the particular design of the rim profile it meets the needs of the most technical bikers.

The rim design has been optimized for mounting latest generation of wide tires: from a structural point of view, these contribute to improve the couple tubeless/clincher even at lower pressures, avoiding unwanted deformations when bending, braking and in traction phase.

Custom Apparel

Visit www.Albabici.com for complete program details.

Nalini presents Teamwear: the custom made collection for your team. Born from the expertise of Nalini in the world of professional cycling with technologies and materials tested by top athletes, Teamwear offers amateur cyclists a selection of high performance products and professional quality. The three product lines, Race, Ride and Comfort are designed to meet the specific needs of every cyclist, based on intended usage and technical needs, providing comfort, fit and protection.

All items are customizable. Nalini offers you the opportunity to develop a unique custom graphic design for the products you choose, based on your personal creativity, or on the advice of our designers. An ideal solution for you, your sponsor or team that gives your clothing a unique style.

Custom Examples: Finished Designs

Repair Stands

BS102: The Tour

DETAILS

- Height (cm): 102
- Base (cm): 58x105
- Packaging (cm):
 - 65x18x103 - 65x18x96
- Weight (Kg): 42

- Professional workbench for mechanics, for the maintenance of every kind of bicycles. Includes a wheel truing stand, a huge tool basin, BMX supports, a plate for rear wheels, and a handlebar support for use during steering maintenance.
- Has a rubber support for central movement with safety system (fixable on height and angle) and is equipped with adapters for clamping wheels to fix the bicycle with or without front or rear wheel.

BS100K: The Professionalist

DETAILS

- Stable and strong, perfect for every kind of bicycle maintenance activities.
- Professional and needful for every kind of workshop.
- It is possible to set on the bicycle in every way possible with or without both wheels.
- With wheel truing stand, useful basin for tool and adapters for passing hole.
- In the box are included adapters 15/20 mm to fix the bicycle with forks with passing hole (front wheel).

- Height (cm): 98
- Base (cm): 46x88
- Packaging (cm): 103x47x13
- Weight (Kg): 20,50

BS103: E-Bike

DETAILS

- Height (cm): 118
- Base (cm): 140x56
- Packaging (cm):
 - 160x80x40 - 30x60x22
- Weight (Kg): 72

- New professional use workbench is designed to lift and unlift the heavy bicycles and E-bike for pro mechanics. It can be used with all kind of bikes, especially E-bike and MTB.
- Using a pedal you can lift and unlift the bicycle. After that you have fixed this using up to fixing points.
- Details: plate, rubber support for central movement with safety system (fixable on height and angle), wheel truing stand, all kind of clamping wheel, bmx supports, huge tools basin, handlebar support during steering maintenance, carpet included..

BS088XL: Folding Clamp XL

- Adjustable and folding clamp for the bicycle maintenance.
- Stable and folding
- Small encumbrance
- Easy for carrying
- 360° revolving clamp suitable for all bicycle kind
- Internal rubber protections for the frame safety.
- Adjustable height in 3 different position
- Height 145/155/165 mm (fixing system).

DETAILS

- Height (cm): 145/155/165
- Base (cm): 120x105
- Packaging (cm): 24x24x108
- Weight (Kg): 10,75

BS85: Double Clamp Grande

- Double big clamp for all kind of bicycles for the maintenance.
- Maximum strength and professionalism.
- Double 360° revolving for frame safety.
- Adjustable height from 127 to 175 cm
- Equipped with tools basin and hooks for wheels.
- Professional for work-shop

DETAILS

- Height (cm): 175
- Base (cm): 80x61
- Packaging (cm): 81x62x3 e 113x50x23
- Weight (Kg): 44,20

Technical Articles

BS151BIS: Saddle Setback

- Precise tool to detect the saddle moving back.
- Alluminium ruler and millimetric scale in steel.
- Professional

DETAILS

- Height (cm): 118
- Base (cm): 39x25
- Packaging (cm): 127x16x12
- Weight (Kg): 3,60

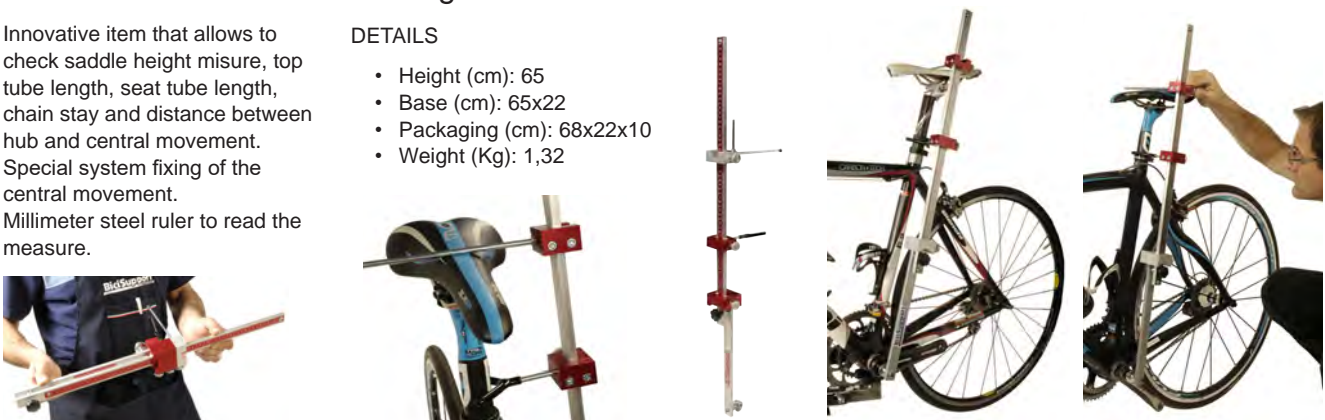

BS180BIS: Double Use Saddle Height

- Innovative item that allows to check saddle height measure, top tube length, seat tube length, chain stay and distance between hub and central movement.
- Special system fixing of the central movement.
- Millimeter steel ruler to read the measure.

DETAILS

- Height (cm): 65
- Base (cm): 65x22
- Packaging (cm): 68x22x10
- Weight (Kg): 1,32

BS160BIS: Bio Size

BS160BIS Bio Size is a measuring device to accurately obtain body measurements to determine the ideal bicycle size and components. The BS160BIS User Guide (Pdf) is available online

DETAILS

- Height (cm): 213
- Base (cm): 43x42
- Packaging (cm): 115x45x18
- Weight (Kg): 16,60

A: Inseam
B: Torso
C: Arm length
D: Height
E: Shoulder width
F: Femur length

- With art. nr 160 BIS you can take body sizes.
- New alluminium structure, millimeter steel rules.
- Equipped with caliber to check all important body measures: crotch height, trunk length, arm length, height, shoulders width, femur length.
- The body size are the beginning to detect the frame measures and the position on the saddle.

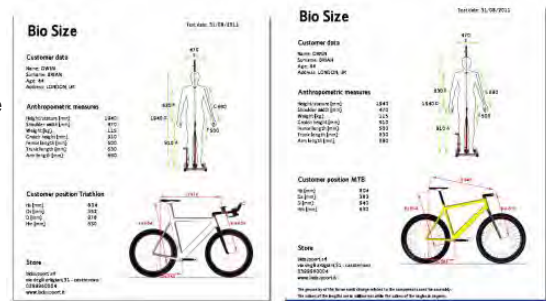

BS161: Bio Size Software (Road Bikes)

The Bio Size Software calculates and recommends the cyclist's ideal frame geometry, rider position and component sizes based on body measurements. It's easy to use and prints out a comprehensive report detailing:

- Frame Size
- Stem Length
- Stack Height
- Handlebar Width
- Crank Arm Length
- Saddle Height and Position

BS162: Bio Size Software (MTB / Triathlon Bikes)

BS163: Bio Size Software (Road, MTB and Triathlon Bikes)

BS171B: Pro Size

- The Pro Size is an innovative alluminium ruler of millimetric precision to quickly verify the most important measures of the bicycles: saddle height, saddle moving back, distance saddle top-stem.
- Equipped with a level for ruler flat positioning and with adapters for the use on bicycle with or without wheels

DETAILS

- Height (cm): 105
- Base (cm): 117x23
- Packaging (cm): 132x24x19
- Weight (Kg): 5,90

BS172: Get Your Size

DETAILS

- Height (cm): 136
- Base (cm): 146x31
- Packaging (cm): 149x31x23
- Weight (Kg): 27,10

- New template of millimetric precision to take the most important measures of the bicycles to have the correct position of the rider on the bicycle.
- Work steps:
 - to put the bicycle on the template and lock the knobs at the base of instrument to fix the wheels opening of the bicycle
 - insert the pin in the central movement, lock by knob
 - fix the bicycle and frame using the nylon central part
 - take the measures: saddle height, saddle moving back, distance saddle to handlebar.
- Specific for race, mtb, chrono and triathlon bicycles

Tools

BS600: Torque Wrench 3-15 Nm

Bicisupport's torque wrench 3-15 Nm is made in Italy. Capacity is from 3 to 15 Nm.

- Single direction release
- Guaranteed accuracy +/-4% in accordance with EN ISO 6789:2003
- Traceable calibration certificate through accredited laboratories

BS601: Torque Wrench 10-60 Nm

Bicisupport's torque wrench 10-60 Nm is made in Italy. It's furnished with adapter 3/8" - 1/4".

- Capacity from 10 to 60 Nm
- Guaranteed accuracy +/-3% in accordance with EN ISO 6789:2003
- Traceable calibration certificate through accredited laboratories

BS501: Apron BiciSupport

BS658: Hex, Allen & Torx Sockets & Extension

BS658 is included with both BS600 and BS601

BS2: Workstand "Due Metro"

BS2 is a 6' 6" long workbench equipped with four lockable tool drawers and a large cabinet. The utility cabinet has a drawer and an adjustable shelf. The wooden counter top offers ample space to work and features an attached steel vice. Easily access your tools with the attached plated peg board wall.

BS110: Cleat Assembly Guide

- Technical tool by which you can position correctly the studs of the cycling shoes, so the cyclist can avoid physical damages.
- Mount pedals, lock in the shoes to the pedals, then approach the shoes heel to the plate and verify the cranks position
- Scale: 1-14 shoes alignment, 1-18 shoes advancing and moving back

DETAILS

- Height (cm): 30
- Base (cm): 23x16
- Packaging (cm): 33x25x4
- Weight (Kg): 1,5

BS184: Lever Set Height Guide

DETAILS

- Height (cm): 16
- Base (cm): 36x6
- Packaging (cm): 21x10x40
- Weight (Kg): 1,25
- Innovative Tool for the levers height detection
- Measure can be read on the millimetric ruler
- Expander for the handlebar fixing
- Millimetric precision
- Professional. Equipped with bubble system to check the equilibrium of the detection.

BS115: Pedals Unhook

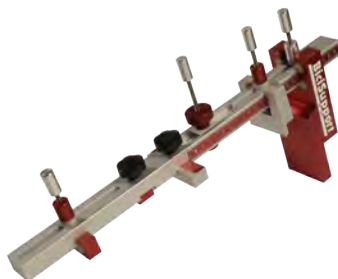

DETAILS

- Height (cm): 22
- Base (cm): 6x46
- Packaging (cm): 25x10x48
- Weight (Kg): 1,53

- Innovative new instrument to unhook the pedals.
- It works as a lever.
- The length is adjustable
- Very useful: it allows to avoid the danger of touching the crankset.
- Easy and fast operation.

BS111: Cleats Tool

- New instrument to fix the cleats in the correct position at the shoe in reference to rider. There are nr.3 reference point to help you in this operation
- Rear tip for the center of the shoe, screw to fix the shoe, part for front reference shoe, part to fix the instrument in vice.
- Millimetric precision scale.

DETAILS

- Height (cm): 22
- Base (cm): 6x46
- Packaging (cm): 25x10x48
- Weight (Kg): 1,53

BS91: Handlebar Holder

BS401: Bicycle Wash

- Washing tank studied by Bicisupport for all bicycles kind.
- It is equipped with an internal structure to fix the bicycle frame or wheels, and a pneumatic pump that allows it to breath in fluids from cans and to put them directly into the tanks by a brush or washing lance.
- Using from tanks (clean water,detergent,wastes) or by direct connection to the tap
- Professional, handy, equipped with wheels for an easy placement
- For indoor or outdoor use, it can be closed by a cover
- The main operations are:
 - A: washing by detergent
 - B: rinsing with clean water by the washing lance
 - C: drying by pneumatic gun

DETAILS

- Height (cm): 189
- Base (cm): 144x75
- Packaging (cm): 157x86x69
- Weight (Kg): 152

Bicycle Pumps & Inflation Systems

Sapo is Italy's leading and longest-standing manufacturer of high performance cycling pumps and inflation systems. Sapo Pumps are superbly efficient, completely serviceable and require no tools for disassembly. Only the best materials and components are used to make Sapo Pumps which are designed to last a lifetime. If a part wears out over time, spare parts are readily available throughout the world. Owning a Sapo Pump guarantees you quality, durability, reliability and safety.

ART. BS 147 MAGNUM

Magnum is both a bicycle stand and a pump. The high pressure pump helps you with air inflation and the stand helps you to fix the bicycle in a perfect way on the floor.

It has maximum stability, is portable and is a folding stand with small encumbrance. Magnum is equipped with two hooks to support the bicycle.

The extra long rubber high pressure tube allows you to easily pump both your rear and also front wheels.

- Works with Presta, Schrader and Dunlop valves
- Capacity: 232 psi / 16 bar
- Weight: 6.5 lbs
- Height: 30.75 in
- Base: 7.5 in x 5.125 in

Open

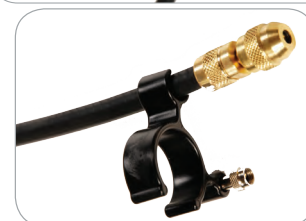

Closed -
Portable
& Folding

ART.098 SAPO ONE Professional High Pressure Floor Pump

The SAPO One professional high pressure floor pump is a powerful pump. It features a solid steel barrel that's capable of uninterrupted inflating up to 20 wheels in a row with the same number of strokes for each wheel to easily reach 100 psi without overheating. It is available in Chrome and Black.

- Works with Presta, Sclaverand, Dunlop, Regina and Schrader valves.
- Strokes to 100 psi: 19
- Weight: 3.2 lbs
- Hose: 47.25 in
- Barrel welded to the base.
- Capacity: 232 psi / 16 bar

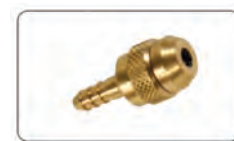

ART. 101 OK PLUS FLOOR PUMP

Available in Chrome and Black Only

OK PLUS Floor Pump is a dependable high pressure floor pump that easily inflates your tires up to 12 bar/180 psi. This high-performance pump is exceptionally durable and easy to use. The solid base with large foot pads stabilizes the pump, and the ergonomic beech wood handle makes it easy to inflate. Just attach the JUMBO adapter to the valve, and start pumping.

The steel barrel permits maximum inflation while the easy to read gauge gives you an accurate reading. The pump is designed for years of performance and completely serviceable. Barrel welded to the base.

- Works with Presta, Sclaverand, Dunlop, Regina and Schrader valves.
- Recommended for road, MTB, down-hill and city bicycle tires.
- Strokes to 100 psi: 21
- Weight: 3.1 lbs
- Hose: 39.8 in
- PSI:180 / Bar: 12

JUMBO

ART. 104/A BJRO

Art. 104/A BJRO is an extremely lightweight and colorful mini pump.

BJRO inflates up to 7 bar / 100 psi even though it's small and compact.

Thanks to a special screw-joint and a unidirectional valve (Schrader and Presta valves); BJRO can easily inflate most valves.

It is also available in several different colors and equipped with clips to attach the pump to the frame.

Colori disponibili / Colours:

	Blu Blue		Grigio chiaro Light grey
	Nero Black		Grigio scuro Dark grey
	Rosso Red		Giallo Yellow
	Azzurro Light blue		

ART. 130/A AMIKA

AMIKA is a special mini pump that is very compact (Ø 22 mm, length 214mm). It is suitable for professional use. It can inflate all types of tire inner tubes in two practical ways:

1. Manual System: Using the traditional inflating system up to 7 bar / 100 psi.
2. Automatic System: Using CO2 cylinder inflating system up to 7 bar / 100 psi.

- Works with Presta, Schrader and Dunlop valves
- CO2 cylinder or manual inflation
- Handle – New ergonomic handle

SPARE PARTS / TOOLS

Art. 111 SPEEDY

"SPEEDY" is a flow regulator for fast inflation. Incorporates a brass ring and silicon rubber grommet.

Art. 129 JUMBO

Swivel threaded joint "JUMBO" (12 bar/180 psi.) Works with Presta, Dunlop, Regina, Scaverand, and Schrader valves.

Art. 141 CONTROLLER

"CONTROLLER" has a turning knob to regulate flow for fast inflation. The turning knob is made in aluminium.

**NOT TESTED
ON ANIMALS**

Hibros PreSport Cream (Dual Cartridge Dispenser®)

Hibros PreSport cream features two cartridges that work together to provide the ideal mixture of warming cream. You determine the intensity of the heating action based on your body's requirements as well as the climatic conditions. Through the simple spin of the regulating dial, you have a choice of 14 different settings of intensity. Refill cartridges are available separately.

150 ml Dispenser
75 ml each cartridge recharge.

150 ml Dispenser - Code #: PG
Orange cartridge - Code #: PGR1
Red cartridge - Code #: PGR2

PreSport Warming Oil & Cream (Medium)

HIBROS PRESORT OIL, a light emulsion with medium heating action should be applied before training and competition. It is recommended for use in not-so-cold and cold environments.

Oil 200 ml - Code #: PGMO
Oil 500 ml - Code #: PPGMO
Cream 100 ml - Code #: PGM
Cream 500 ml - Code #: PPGM

PreSport Warming Oil & Cream (Strong)

HIBROS FORTE PRESORT OIL, a light emulsion with strong heating action should be applied before training and competition. It is recommended for use in cold and extreme cold environments.

Oil 200 ml - Code #: PGFO
Oil 500 ml - Code #: PPGFO
Cream 100 ml - Code #: PGF
Cream 500 ml - Code #: PPGF

Depil Sport Cream-Gel and Spray

A great alternative to shaving. Apply the spray or cream-gel, wait a little and then rinse off. In just few minutes these gentle hair removal products completely remove superfluous hair without irritation.

Spray 200 ml - Code #: DSS
Cream-Gel 200 ml - Code #: DS
Cream-Gel 200 ml + DEPILSCRUB - Code #: DS+

Post Depil Sport Milk

Essential after all Depil Sport Cream or Spray, it decongests the skin (mallow), leaving it soft (almond oil) and fresh (menthol).

200 ml - Code #: PDS

Shower Gel

Shower gel is ideal for refreshing and toning the body after intense physical activity. Its components leave the skin fresh and mildly fragrant. It also has a revitalizing effect thanks to the stimulating action of ginseng. Not tested on animals.

200 ml - Code #: DDS
500 ml - Code #: PDDS

Presport Summer Thermo-regulating Cream (SPF - 25)

Effective pre-race/sports summer cream, with thermo-regulating action, recommended in mild, warm and hot weather, this product effectively protects skin from UVA and UVB rays, with a solar protection factor of 25.

Cream 100 ml - Code #: PGS

AfterSport Defatiguing Oil and Cream

HIBROS AFTERSPORT OIL is a cool down skin oil with revitalising action; when rubbed carefully on to the skin after physical exercise, it relaxes muscles to leave the skin tropic, soft and smooth.

Oil 200 ml - Code#: DGO
Oil 500 ml - Code #: PDGO
Cream 100 ml -Code#: DGD
Cream 500 ml -Code#: PGD

Hibros Defatiguing Cream (Dual Cartridge Dispenser®)

Hibros AfterSport cream features two cartridges that work together to provide the ideal mixture of cooldown cream. You determine the intensity of the cooling action based on your body's requirements. Through the simple spin of the regulating dial, you have a choice of 14 different settings of intensity. Refill cartridges are available separately.

150 ml Dispenser
75 ml each cartridge recharge.
